# Superintendent's Report

---

Dummer, N. H., February 1, 1930.

School Board of Dummer,

Ladies:

I herewith submit the annual report of the Superintendent of Schools. The statistics for the year 1928-1929 appear at the end of this report.

## Instruction

Miss Elvira Boston returned this year to the Willis School, Miss Dessie Lane was appointed teacher at the West Dummer School and resigned at Christmas. Miss Avery Hart was appointed teacher and the work is progressing well.

It seemed advisable to reopen the Pontook School this fall as there were 11 pupils to enroll. Mrs. Lillian Macdonald was appointed to this school. The school presented peculiar problems of organization because nearly half were from a different state in which the elementary education is spread over nine years instead of eight and the others were from two different schools in the state. However, with individual help and some adjustments the work is now motivating very well, and it is indeed a pleasure to feel that every pupil is learning all the time, not only during the recitation, but in supervised study. During the present year we have tried as far as reasonable to provide for a specific help period in which pupils are free to ask for help on any subject. This applies not only to those who may be slow in comprehending the explanations of class, but also those who may have been absent. Heretofore, this valuable work was done after school when teacher and pupil were nervous and tired, and some were denied this opportunity as they had to ride on the school team. The results so far have been very gratifying. We have tried to develop each pupil to his maximum capacity and to give each one a fair opportunity regardless of his scholastic ability. Modern educational procedure is based on the belief that schools supported by public taxation should not develop the gifted children to the neglect of

the others because all finally assume the responsibilities of citizenship.

### Attendance

The attendance last year was good and in excess of the average of the state. The schools were in sessions 4 days less than the state average. The district will do well in my judgment, to operate 37 weeks instead of 36 and give 180 actual school days opportunity. It is unfortunate that every time a contagious disease breaks out in the district the School Board is urged to close the schools, Advice from the State Board of Health is in general not to close the schools, but to dismiss children who may have had colds and headaches. Free pamphlets of splendid advice are free on application to the State Board of Health. Hardly a winter finds any school district without a contagious disease, and if schools were operated only when districts were absolutely free from contagious diseases, they would be in session, but a fraction of the normal year. Parents may be within their rights in keeping children home during the small epidemics, but they should not expect the schools to shut down. These unanticipated shut downs interrupt school work, very often result in long terms, and extend the school year late in June, when children are tired and uneasy.

The registers show that Joyce Griffin was neither tardy nor absent the entire year.

### Health

Miss Esther Uhlshoeffer, who has successfully conducted the medical supervision for a number of years wished to be relieved of this work owing to pressing duties elsewhere. Dr. N. B. Dresser of Berlin is doing the work of this entire supervisory union this year. It is gratifying to know that although the inspection is not quite complete, it is apparent that the school children of the Willis District have had more medical and dental attention than the other districts in the union. This is highly commendable for this school. The situation of health is improving immensely, but there are some children in the district still who are hardly receiving a fair chance now and for adult life.

### Financial

The School Board's detailed budget is with the board's financial report. It is practically the same as last year even with the additional expense of operating the Pontook school and loss of tuition from the Stark School District. The diminishing of trans-

portation responsibilities and anticipated balance at the end of the current year makes the appropriation asked for probably sufficient to operate the schools efficiently during the year 1929-1930. It will be necessary to paint and shingle the Pontook school this summer.

### Conclusion

This closes the last of my reports as Superintendent of Schools. I have enjoyed working with your children and endeavoring to solve the school problems as they have presented themselves. I wish to thank the School Boards, present and past, parents and citizens for their splendid cooperation. I believe that your schools are keeping pace with modern educational thought and equipment.

Respectfully submitted,

ALLAN M. McCURDY,  
Superintendent.
